THE TERM DARK HORSE -The origin of the term "dark horse" is explained plainly in a mat ter of fact way by the Circinnati Ecquierer. Once upon a time there lived in Tennessee an old chap named Sam Flyno, who traded in horses and generally contrived to own a speedy pag or two. which he used for racing purposes whenever be could pick up a "soft match" during his travels. The best of his fivers was a cold black stallion named Dasky Pere, who was almost a thorough bred, and able to go to the best of company, Flynu was accustomed to saddle Pete when ap proaching a town and ride him into it to give the impression that the animal was merely s "likely hose" and not a flyer. One day he came to a town where a country race meeting was being held and he entered Pete among the contestants. The people of the town not knowing anything of his antecedents and not being over impressed by his appearance, backed two or three local favorites heavily against him. Fiynn moved quietly among the crowd and took all the bers offered against the pag. Just as the "figers" were being saddled for the race old Judge McMinamee, wto was the turf oraole of that parc of the State, arrived on the course, and was made one of the judges. As he took his pisce in the stand he was told how the betting ran, and of the folly of the owner of the strange entry in backing his "plug" heavily. Running his eye over the ruck, the Judge instantly recognized Pere, and he said: · Gentlemen, there's a dack horse in this race that will make some of you smell h- before The Judge was right. Pate, the "dark horse," lay back until the three quarter pole was reached, when he went to the front with a rush and won the purse and Flyon's bets with the greatest case.
